RENO, NEVADA."August  
Flower"

I had been troubled five months  
with Dyspepsia. The doctors told  
me it was chronic. I had a fullness  
after eating and a heavy load in the  
pit of my stomach. I suffered fre-  
quently from a Water Brash of clear  
matter. Sometimes a deathly Sick-  
ness at the Stomach would overtake  
me. Then again I would have the  
terrible pains of Wind Colic. At  
such times I would try to belch and  
could not. I was working then for  
Thomas McHenry, Druggist, Cor.  
Irwin and Western Ave., Allegheny  
City, Pa., in whose employ I had  
been for seven years. Finally I used  
August Flower, and after using just  
one bottle for two weeks, was en-  
tirely relieved of all the trouble. I  
can now eat things I dared not touch  
before. I would like to refer you to  
Mr. McHenry, for whom I worked,  
who knows all about my condition,  
and from whom I bought the medi-  
cine. I live with my wife and family  
at 39 James St., Allegheny City, Pa.

## The New Silver Designs.

"It is not likely that another com-  
petition will ever be tried for the pro-  
duction of designs for United States coins,"  
said Assistant Director of the Mint Pres-  
ton. "The one just ended was too  
wretched a failure. Doubtless it was  
the first contest of the sort ever opened  
by any government to the public at  
large. The result is not very flattering  
to the boasted artistic development of  
this country, inasmuch as only two of  
the 800 suggestions submitted were good  
enough to receive honorable mention.  
So the affair has been handed over to the  
engraving force of the Philadelphia  
mint, which will produce the dies re-  
quired according to such patterns as its  
own sense of the beautiful suggests."

The designs for Uncle Sam's coins  
hitherto have been produced at the  
money making establishment at Phila-  
delphia, where the dies for all the mints  
are turned out. Anticipating a severe  
popular criticism, the chief engraver  
will do his utmost to render the five  
cameo pictures called for as unexcep-  
tional as possible, esthetically speaking.  
There must be a substitute of some kind,  
representing Liberty, for the schoolmarm  
on the dollar, the reverse of which re-  
quires a better type of bird than the  
present buzzard.

Also the unprepossessing female, seated  
upon a cotton bale, is to be removed  
from the half dollar, quarter and dime.  
Plaster casts of the patterns evolved will  
be submitted for approval to the director  
of the mint and the secretary of the  
treasury, and as soon as they have been  
pronounced satisfactory dies will be  
made and small change of new and lov-  
ely mold will thereafter jingle in the  
pockets of the people.

No alteration is to be made in the gold  
coins, because they are really exquisite  
now, and could hardly be improved upon.  
It is realized that the money of a nation  
is expressive of its art culture. There-  
fore, lest posterity imagine the present  
generation to have been barbarous, it is  
desirable that our silver pieces should be  
as handsome as may be.—Washington  
Letter.

Visions of a Brother's Death.  
A special from Richmond, Ind., says:  
"Some months ago Samuel Nutting, of  
this city, was run down by a switch en-  
gine and instantly killed. He had no  
relatives here, but had a sister some-  
where in the west, of whom nothing had  
been heard for years. Yesterday Post-  
master Jenkinson received a letter from  
the sister, who lives near Davenport, Ia.,  
asking for information as to her brother,  
and stating that she had dreamed that  
her brother had been killed in an acci-  
dent and had felt worried over the mat-  
ter, so she determined to write and learn  
if something had happened to him. Par-  
ticulars were sent to her today of the  
death of her brother."

An Ugly Predicament.  
John Geiss, a Michigan blacksmith,  
got his foot tangled in a rope attached  
to a balloon at Wenonah Beach, on Saginaw  
bay. He called to the folks to hold  
him when the balloon went up, but they  
could not. However, he got his feet un-  
tangled before he had gone more than  
three or four rods, and falling on soft  
sand, he escaped injury.—Philadelphia  
Ledger.

Seared by the Phonograph.  
One of the African convoys of King  
Gungunhana in London, the other day,  
was nearly frightened to death by a  
phonograph. He talked to the instru-  
ment and when it repeated his words to  
him he fell on the floor in a swoon. It  
was some time before he gained courage  
to ask questions, as he thought a witch  
doctor was in the phonograph. He pro-  
posed to silence the witch by stuffing a  
dried frog's leg into the instrument,  
along with some other charms he had  
with him. Having been dissuaded from  
this and the matter explained, he said it  
was no use for him to tell lies, as all his  
words were recorded.—London Letter.

Another Wandering Turtle.  
Ernestus North, of Berlin, caught a  
turtle last week which was first captured  
by his father half a century ago. The  
following letters are carved on the shell,  
"L. J. Lamb, A. S., E. N., 1840." The  
initials "A. S." mean Albert Sanderson,  
who is still living in Durham. Mr. Lamb  
and the original Ernestus North are dead.  
Witnesses are living who can testify  
that the three men referred to marked  
the turtle as above in 1840 and then per-  
mitted it to go free.—Hartford Courant.

Like the Man in Our Town.  
A Unity man who lost his false teeth  
while in bathing on Sunday and found  
them again while taking another dip  
Monday thinks he has some slight idea  
of how the renowned man of bramble  
bush fame felt.—Lewiston (Me.) Jour-  
nal.

Myriads of fire bugs were met with  
near Rome, Ga., about 9 o'clock the  
other night, by a steamer. They com-  
pletely filled the air, obscuring a neigh-  
boring island and the channel marks.  
At first the captain was mystified by the  
sight and backed the vessel and started  
the electric lights, when thousands of  
the bugs fell on the decks.

A newspaper in the Gypsy jargon, the  
Romany tongue, is soon to be published  
in England with the expectation of  
making it the organ of the wandering  
people. It will be edited by George  
Smith, the "king" of the English Gyp-  
sies, who counts upon getting 20,000  
subscribers to it.

The defeat of bossism in Pennsylvania last November by the election of Governor Pattison, is disclosing almost unparalleled crookedness, corruption and scoundrelism in that State. Under the rule of Quay and his satellites, rottenness in public affairs prevailed to as great an extent as it did in New York when the Tweed ring controlled the courts, the Legislature and in fact every department of the Government. The public funds, collected from the people, ostensibly for the support of the Government, were squandered or stolen and the officials in the State House at Harrisburg conspired with the Philadelphia clique to rob, cheat and defraud the State and the country.

Scarcely had the penitentiary gates closed behind Treasurer Bardsley, who robbed the taxpayers of nearly a million dollars, when it was discovered that the State Insane Hospital at Harrisburg is grossly, in fact, criminally mismanaged. A committee appointed to investigate charges against the management of the Insane Asylum, finds that the unfortunate inmates have been subjected to the most cruel treatment. Patients were assaulted and subjected to the most cruel punishment, involving great bodily injury, by brutal attendants. Although the facts were known to the Superintendent and physicians they failed to dismiss the offending attendants, who, like themselves, were appointed by the bosses for partisan services, and were the creatures and tools of the ring.

The belief is general that nearly every department of the Government and every State institution is conducted on the same principle as the Treasury and Insane Asylum, but as they are all, with the exception of the Executive, controlled by the bosses, it is difficult for Governor Pattison to secure a thorough and impartial investigation. Enough has been disclosed, however, to show the people how State affairs are conducted and to cause every honest man in the State to denounce the scoundrels who under the guise of Republicans, have robbed the public, cast reproach upon the fair fame of the Commonwealth, and made the name of Quay a synonym for Tweed.

THE MAIN ISSUE.

Hon. Henry Cabot Lodge, Representative in Congress from Massachusetts and author of the Elections and Corrupt Practices Act, has taken the issue of the free coinage of silver to be the issue of the next Presidential campaign. In an article in the Forum he maintains that the tariff question is always with us and is not settled now and will not be settled at an early date, but that the agitation of the free coinage of silver has reached an acute stage that is not going to pass away before some definite action is taken and that popular feeling is such that this is obliged to come to a crisis in the next year's campaign.

Mr. Lodge is orthodox Republican, a believer in Federal control of the polls and an ardent gold bug. He is an acknowledged leader in his party and is accorded a prominent position in its councils. He is a consistent opponent of free coinage and makes no attempt to conceal that fact.

As a straight Republican he will oppose any attempt to remonetize silver and is satisfied from the platforms adopted by his party in Iowa, Ohio, Kentucky and New York that the National Convention next year will not adopt a free coinage resolution. Assuming that he knows what he is talking about, the inference is that the Democratic or some other party must advocate free coinage to make it an issue, as the Republicans are opposed to it. In such an event what will Nevada do? Will the Republicans who profess to favor free coinage, stay with their party and support a goldite Presidential candidate? or will they assert their independence and vote for the nominee of a party, that will pledge itself to remonetize silver?

CALIFORNIA DAY.

Wednesday was the forty-first anniversary of the Admission of California to the Union as a sovereign State. The day was observed as a holiday in San Francisco, and was celebrated in Santa Cruz by the Native Sons from all parts of the State. The parade was the most imposing demonstration ever seen on the Coast outside of San Francisco.

California is the only one of the new States that was not originally organized as a Territory by Act of Congress. By the Treaty of Peace signed at Guadalupe Hidalgo, February 2, 1848, California was ceded to the United States by Mexico. In September, 1849, a convention composed of delegates elected in accordance with a proclamation issued by General Riley, met at Monterey and framed a constitution, which was adopted at an election held in November of that year and September 9, 1850, the State was admitted into the Union by Act of Congress, without the formality of a Territorial organization.

BY TELEGRAPH!

News of Importance From Home and Abroad.

Mysterious Disappearance.

Special to the Journal.  
CHICAGO, September 10.—Miss Ava, a wealthy English woman, who came to Chicago recently to raise the standard of those living in the slums, is reported to the police as missing. She has been stopping at the residence of Rev. Dr. Bolton. Last evening Miss Ava and Mrs. Bolton drove to the Jesuit Church on the west side. Miss Ava entered the building, telling her companion she only intended having a few minutes conversation with the priest. Mrs. Bolton waited half an hour, and finally became alarmed when Miss Ava did not return. She remembered the missionary had spoken of receiving letters in which her life was threatened, and feared she had come to harm. Mrs. Bolton at once notified the police. Detectives were sent out and learned from the priest at the church that Miss Ava had called, and after a fifteen minutes' conversation about religious matters, had gone away. All attempts to gain any clue to her whereabouts after that time thus far have been fruitless. Miss Ava is said to be very wealthy and devoted her time and money to indulging her hobby for "slumming." Her friends say her crusade against the wrong made her many enemies who threatened her life. She came to Chicago the first of last month to carry on the work which she had acquired fame for doing in London.

Father Fitzgerald, President of the Jesuit College, said this morning: "About nine o'clock last evening Father Kelly, who is pastor of the church connected with this institution, informed me he had been paid a visit by a lady shortly after seven o'clock, and had after an interview led her to the church connected with the building, that she expressed a desire to pray and that he left her in the church. He noticed her carriage still at the door, and, at my suggestion, we sought for her in the church. The coachman appearing about that time and expressing fears for Miss Ava's safety, we made a thorough search of the entire church, but found no trace of her."

Railroad Switchmen Make Trouble.

Special to the Journal.  
LIMA, Ohio, September 10.—Superintendent Hill and Train Master Cook, of the Lake Erie and Western, went into the yard to-day and made up trains in place of the striking switchmen. As the west-bound train got out four miles the strikers boarded it and pulled every coupling pin, which they hid in the grass. They compelled the engineer and fireman to let the water out of the engine and leave the train. The east-bound passenger was delayed four hours, until the freight train could be removed. At 4 o'clock this afternoon the first freight in two days was gotten under successful headway. It was followed by an engine to Butte, armed officers being on the engine. The strikers made no attempt to stop it. Since then several other trains have been sent out, and it is believed the company has won. This morning the switchmen spiked switches and did everything possible to cause trouble.

A Serious Charge Proven.

Special to the Journal.  
OTTAWA, Ont., September 10.—The Railway Committee of the Senate has prepared a report on the "Act respecting the Baie Des Chaleurs Railway Company" regarding the charge that out of certain moneys amounting to \$280,000, authorized by the Government of the province of Quebec, to be paid to the company on account of subsidies granted by the Legislature, a sum amounting to \$175,000, was retained and improperly applied to purposes other than the construction and completion of said railway. The committee finds that the charge is proven and among those who profited by the misapplication were Hon. M. Mercier, Premier of the Province of Quebec, Hon. C. A. Pelletier, Hon. Chas Langelier, Hon. Francois Langelier, J. I. Tarte and Ernest Pacand.

California Horses Sold.

Special to the Journal.  
CLEVELAND, September 10.—The prices realized at Emery Fasig's sale at Glenville to-day were above the average. The California horse, Simmooolon, was knocked down, after spirited bidding, to George Hammond, of Detroit, Michigan, for \$13,500, and Ferndale, the phenomenal yearling filly, by Simmooolon, with a record of 36 seconds for the last quarter in a mile, was bid in by J. H. Shultz, of Brooklyn, N. Y., for \$6,000. George Hammond, of Detroit, paid \$5,000 for Duchess. There were several other good sales.

Riots in China.

WASHINGTON, September 10.—The Department of State has received a telegraphic dispatch from the Minister at Peking, reporting a riot at Ichang on the Yang Tze Kiang river, in the province of Hoo Pe, and that the establishment of the American missionaries there has been destroyed. No further particulars are given. Ichang is about 200 miles above Han Kow, which is about as far up the river as vessels of war can go.

Base Ball.

Special to the Journal.  
SAN FRANCISCO, September 10.—Oakland 4, Sacramento 10.

The End of the Park Place Disaster.

Special to the Journal.  
New York, September 10.—A tale of the horrible disaster in Park Place, resulting in the death of 60 odd human beings, is now ended with the verdict of the jury. It found that the people killed lost their lives by a collapse of buildings, caused by the giving way of the supporting iron columns near the middle of the ground floor, due to some sudden shock applied to said columns, and not primarily due to their apparent inherent weakness. The jury was unable to find whether the breaking of these columns was due to an explosion or not. The jury recommended legislation authorizing the fire department to periodically inspect all buildings used for printing, manufacturing and storage purposes.

Microscopic Inspection of Pork.

Special to the Journal.  
WASHINGTON, September 10.—Secretary Ruek has received applications from the packers at Boston, South Omaha, Nebraska and Kansas City for microscopic inspection of pork, and arranged a schedule of the number to be inspected at each of these places for export. The Secretary of the Treasury has decided to make a further withdrawal of \$2,000,000 from depository banks. A call will be made in the first instance upon the banks which the Secretary thinks have too large an amount of Government funds in proportion of the security furnished. In some cities where there are several Government depositories one will be discontinued.

Warning to Settlers.

Special to the Journal.  
WASHINGTON, September 10.—An additional proclamation, signed by President Harrison and Assistant Secretary of State Wharton, was issued to-day in regard to the timber reserve at Yellowstone Park. The boundaries are the same as described in the first proclamation. It concludes with a warning to all persons not to enter or to make settlement in the section reserved for the Yellowstone Park.

The Itata.

Special to the Journal.  
SAN DIEGO, Cal., September 10.—Captain Mannzen has not received any official notice of the intention to release the Itata, though he has been expecting some such move for some time. When orders come releasing the vessel she will go to San Francisco immediately for needed repairs, cleaning, etc., then take a cargo of provisions for Obili. The machinery is still disabled by the removal of important pieces by Marshal Gard, who stored them in the United States barracks in this city.

Maryland Republicans.

Special to the Journal.  
BALTIMORE, September 10.—The conference of prominent Republicans to-day resulted in Colonel Vannort remaining on the ticket for Governor, the withdrawal of Westcott from the Chairmanship of the State Central Committee, and the selection of Harry M. Clabaugh for that position.

The Order of Chosen Friends.

Special to the Journal.  
WASHINGTON, September 10.—The Supreme Council of the Order of Chosen Friends elected officers to-day, U. H. Morse of New York being Supreme Councillor, O. M. Arnold of San Francisco, Vice Councillor. Among the trustees is L. B. Webster of Oakland, California.

The Pensacola Sails.

Special to the Journal.  
SAN FRANCISCO, September 10.—The U. S. S. Pensacola left here this afternoon for Honolulu.

MORRISON'S FAUST.

A Brilliant Spectacular Production.  
The Rochester Post-Express says of the play which Reno theatre-goers will have an opportunity to witness at McKissick's Opera House next Tuesday evening: "A good-sized audience was present at the Lyceum Theatre last night to witness Lewis Morrison's spectacular production of 'Faust,' which is, without a doubt, the finest thing of the kind ever presented in this city. Mr. Morrison, as 'Mephistopheles,' made a strong impression when he first appeared upon the stage, and he continued to grow in favor throughout the performance. Mr. Morrison is an excellent actor, is graceful and speaks his lines with good taste. The supporting company throughout is first-class. The scenery is magnificent, and the scene on the summit of the Rothenburg is something remarkable. The play will be repeated to-night and tomorrow afternoon and evening, and people of Rochester who are desirous of witnessing a spectacular production which they do not have an opportunity often to see, would do well to attend."

A Railroad Engineer's Clock.

A new clock has been invented by a railroad engineer that promises to be a great advantage to locomotive engineers. The dial plate and figures are large, and so are the hour and minute hands. As a train whistles by a station the hour and minute hands whirl round like a flash to mark the correct time, and a red bull's-eye flashes into the dial. Five minutes later the red light turns green, and in five minutes more the green light disappears. The engineer on the next train following can tell exactly how many minutes ahead is the train that precedes him. The clock is a perfect time-keeper, and when the train passes drops the signal light.

Edison is of the opinion that ultimately the house will be both lighted and heated for 60 cents a year.

TIME IS MONEY.

Senator Jones Rings for the Drinks.  
Senator John P. Jones, of Nevada, is one of the warmest-hearted, most impulsive men living. He likes to talk, as most bright men do when they are with congenial companions. He was smoking with his energetic, open palm the table in the Hoffman House, at which he was sitting, while he spoke to Colonel Ochiltree, who always listens respectfully to a millionaire, and generally manages to borrow something from him ere they part.

"Tom," said the Senator, earnestly, "they got me nearly broke once, but now I'm rich once more, and they'll never be able to down me again. And I tell you what, I'm not going to leave my millions to my boy to make an idler and a duffer of him. In my will I'll divide up most of my money among the few genuine good fellows I've known. And Tom"—Here the Senator's voice dropped to a tone of intense feeling—"you won't be at the bottom of the list."

Colonel Ochiltree stretched out his manly hand, and grasped that of the generous Nevada.

"Thank you, Jones, thank you," he murmured, husky with emotion. And then brightening up, with the cheery light of speculation returning to his one good eye, he cried:

"But, I say Jones, what's the use of waiting till you're dead?"

The Senator rang for the drinks and gave the Colonel the change.—S. F. News Letter.

Jupiter, which is now evening star and rises about sunset, is 1,300 times the size of the Earth. Astronomers say it is 475,692,000 miles distant from the sun and it takes about twelve of our years to make the circuit around the sun. A railroad train running 90 miles an hour from Jupiter to the Sun would require 5,876 years to make the trip.

Peculiar

Many peculiar points make Hood's Sarsaparilla superior to all other medicines. Peculiar in combination, proportion, and preparation of ingredients, Hood's Sarsaparilla possesses the full curative value of the best known remedies of the vegetable kingdom. Peculiar in its strength and economy—Hood's Sarsaparilla is the only medicine of the kind which can truly be said, "One Hundred Doses of Hood's Sarsaparilla will cure more cases of blood poisoning than any other preparation." Peculiar in its medicinal merits, Hood's Sarsaparilla accomplishes cures hitherto unknown, and has won for itself the title of "The greatest blood purifier ever discovered." Peculiar in its "good name at home"—there is now more of Hood's Sarsaparilla sold in Lowell, where it is made, than of all other blood purifiers. Peculiar in its phenomenal record of sales abroad—no other preparation has ever attained such popularity in so short a time, and retained its popularity and confidence among all classes of people so steadfastly. Do not be induced to buy other preparations, but be sure to get the Peculiar Medicine, Hood's Sarsaparilla. Sold by all druggists. \$1; six for \$5. Prepared only by C. I. She put her trophy in the buggy and then continued the drive, just as if nothing had occurred.

## A STRANGE STORY.

Suspicious that George Beatty, of Candelaria, is Not Dead.

The Carson News says it is informed from an authentic source that the reported death at the German Hospital in San Francisco of George Beatty, who was shot in Candelaria by Wm. Booth, was an exceedingly doubtful question as to its truthfulness. However queer the matter may seem, there is a strong suspicion for its foundation. It appears that Beatty left Candelaria undecided whether to go to his home in Dublin, or have the operation performed in San Francisco. He had in his possession a letter of introduction to a leading physician. Interested parties have written to him and received the reply that Beatty had called, but that he had performed no operation.

The News further adds: The letter received in Candelaria announcing his death at the German Hospital does not bear the signature of the Superintendent of that institution, which is required of him in all such cases, but by an unknown person. Public sentiment in that section is very bitter in Booth's case, and the desire to have him punished being so great, our informant's opinion in the matter is that Beatty's reported death is a "fake," and that the young man has sailed for Dublin. As yet no authentic information has been received in Candelaria to justify the statement. Whether the above is correct remains to be seen.

## Cramps in the Legs.

Many persons of both sexes are greatly troubled with cramps in one or both their legs. It comes on suddenly and is very severe. Most people jump out of bed (it nearly always comes on either just after going to bed or while undressing) and ask some one to rub the leg. I have known it to last for hours, till in despair they would send for the family physician; and even then it would be hours before the spasm would let up. There is nothing easier than to make the spasm let go its hold, and it can be accomplished without sending for a doctor, who may be tired and in need of a good night's rest. When I have a patient who is subject to cramp, I always advise him to provide himself with a good strong cord. A long garter will do if nothing else is handy. When the cramp comes on, take the cord, wind it around the leg over the place that is cramped, and take an end in each hand and give it a sharp pull—one that will hurt a little. Instantly the cramp will let up and the sufferer can go to bed assured it will not come on again that night.—Dr. St. Clair.

## An Idea For a Church Social.

One of the newest things in outdoor games is progressive hammocks. The one getting up the affair swings a lot of hammocks in shady places, and then gets a lot of pretty girls to swing in the hammocks, and rig up a bell. The young fellows pay so much to get in, and then pick a hammock. Every time the bell rings they are obliged to move to another hammock. After that they vote for the best conversationalist, and have to pay for each vote. The game may have its good points, but will never achieve the popularity of the combination formed by a single hammock, a single "spoony" couple and a full moon.—St. Louis Globe-Democrat.

## The World Enriched.

## Deafness Can't Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any of Deafness (caused by catarrh) that we cannot cure by taking Hall's Catarrh Cure. Send for circulars, free.

**LEGAL.**  
**SUMMONS.**  
IN THE DISTRICT COURT OF THE STATE OF NEVADA, in and for the County of Washoe. The State of Nevada, by and through the County of Washoe, is hereby required to appear in an action commenced against you as defendant by Mary T. De Forest, as plaintiff, in the District Court of the State of Nevada, in and for the County of Washoe, and answer the complaint therein within ten days after the service on you of this summons, or the day of service, if served in said county, or twenty days if served out of said county, but within the time specified by the rules of the court, or judgment by default will be taken against you as defendant, and the action will proceed as if you had appeared and answered the complaint. The action is brought to obtain the judgment and decree of the court dissolving the bonds of matrimony now existing between you and said plaintiff, upon the ground of wilful desertion and failure on your part for more than one year to provide plaintiff with the common necessities of life, and for the care, custody and control of said child, and for the return of said child, issue of said marriage, and that plaintiff be permitted to resume her maiden name. All of which will more fully appear from the complaint which is on file in the office of the Clerk of said court at Reno, in said county, and to which you are especially referred. And you are further notified that if you fail to appear and answer said complaint, the said plaintiff will apply to the court for the relief desired.  
In testimony whereof, I have hereunto set my hand at Reno, this eleventh day of August, A. D. 1891.
